

# JF 11

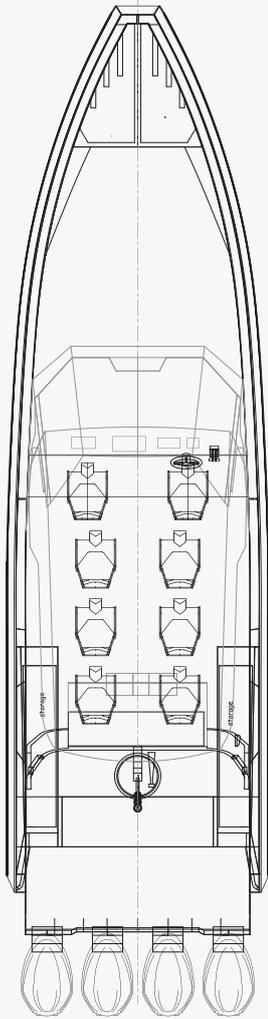

Confidence in Every Journey

**JAGANUSA**

**JAGANUSA JF11, a tactically designed vessel engineered for unparalleled speed on the water. Built for rapid intervention missions, the JF11 excels in both coastal and open-sea operations.**

In the modern maritime theatre, the only constant is change. Operators no longer need just a boat; they need a strategic asset that can pivot from high-speed pursuit to humanitarian relief in a single deployment. Introducing the JF11, a vessel defined by its agility, engineered for its endurance, and proven by its versatility.

The JF11 delivers exceptional performance, expertly crafted to tackle demanding maritime challenges with impressive velocity. Utilizing advanced materials and cutting-edge construction techniques, this vessel offers outstanding durability, making it the ideal choice for critical operations. With its sleek, aerodynamic design and state-of-the-art technology, the JF-01 is not just a vessel, it's a symbol of speed and efficiency on the water.

**Max Speed**

≥ 55  
KNOTS

**Operational Range**

± 350  
NAUTICAL MILES

**Crew Ergonomics**

2 CREW &  
6 PASSENGERS

**Hull Characteristic**

ADVANCED  
STEPPED MONOHULL

Key Specification / Ship Particulars	
Description	Specification
Hull Construction	Marine Grade Aluminium
Length Over All (LOA)	11.50 Meters
Beam Overall (incl. Collar Tube)	3.10 Meters
Draft	0.70 Meters
Fuel Tank Capacity	1,500 Liters
Maximum Speed	≥ 55 Knots
Crew & Passengers	2 Crew + 6 Passengers
Cruising Speed	Approx. 35 Knots
Operational Range	Approx. 350 Nautical Miles
Main Engine	4 x 300 HP Gasoline Outboard Motors (OBM)
